November 12, 1982

[Redacted]
 Executive Director
 Central Intelligence Agency
 Washington, D.C. 20505

Dear [Redacted]

The Senate Committee has reviewed the reprogramming proposal described in the letter of November 9, 1982, under which the Agency would exercise the option to lease [Redacted] square feet of workspace in a building [Redacted]

[Redacted] We have no objection to this action. No more than [Redacted] in FY 1983 funds is to be used for this purpose and this amount is to totally satisfy all FY 1983 occupancy needs to include: rent, minor structural alterations, communications, and security.

The Committee is keenly aware of the severe overcrowding which now exists inside the Headquarters Building. Despite the lack of a FY 1983 appropriation, therefore, we believe obtaining the additional space identified is prudent and will have a positive influence on productivity. We expect to be notified of the sources you will select to offset the leasing costs promptly following the completion of Congressional action on the FY 1983 appropriation for the Central Intelligence Agency.

Sincerely,

Barry Goldwater

The Honorable Barry M. Goldwater
The Honorable Ted Stevens
The Honorable Edward P. Boland

Dear Mr. Chairman:

This letter requests your approval to reprogram [redacted] in Fiscal Year 1983 to lease additional office space to accommodate our expanded staff. [redacted]

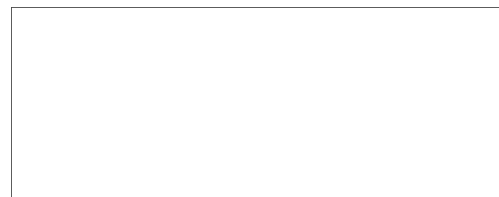

As you are aware, our staff has expanded significantly over the past few years, a major portion of which has been in the Headquarters area. We have also experienced a growing need for special purpose space to accommodate the growth in automation and other sophisticated machine systems which have become an integral part of the intelligence process. These pressures have resulted in situations of serious overcrowding of staff which is impacting both our product and morale. Recent surveys and analysis have identified requirements for additional space totaling [redacted] square feet. In order to partially alleviate this problem, the DCI has authorized, subject to the availability of funds, leasing of up to [redacted] square feet of space [redacted]

We have recently located and taken an option on a new building [redacted] which would be available for occupancy in the summer of 1983. This new building would provide some [redacted] square feet and would meet most of our essential requirements through 1983. We have been advised, however, that if we wish to exercise our option on the building, we must make a commitment and provide requirements drawings to the lessor no later than 30 November 1982. Since we have no funds budgeted for this additional space, reprogramming will be required to meet this commitment. [redacted]

We recognize that since the Congress has not yet acted on our FY 1983 appropriations, requesting authority to reprogram resources at this time represents a very unusual situation; however, our space needs have become critical, and this represents a unique opportunity to satisfy some of our most pressing needs. Therefore, despite the unusual circumstances, favorable consideration by the Committee would be greatly appreciated. We will promptly notify the Committee of the sources of funds for this initiative as soon as the Congress completes action on our appropriations request and our 1983 funding situation becomes clear. [redacted]
